

What are the loans available for farmers?

In which season the crop production is large?

How much crop year?

Which kind of soil is best for farming?

production are in one

B.Abinaya

What is the process of crop production?

What are their wants, needs, hopes, and dreams?

What other thoughts might influence their behavior?

What are the methods to prepare the soil?

Why the people are not interested in the crop production?

Farmers are still low in their econmic level and couldn't able to commercialised to their own product

First do the soil test, the pН adjustments are necessary

We can do the different types of farming.

Verify the loan documents

Verify the qulaity and quantity of crops

Production loss, crops may attacked by pests and diseases

Storage and protection of grains

Expect more facility from Government

Farmers have one source of income. But the crop is failure, the farmer cannot sell anything

Does

What behavior have we observed? What can we imagine them doing?

What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?
